# WELCOME TO OXBRIDGE ACADEMY

## WHO WE ARE

Oxbridge Academy is a respected private **distance learning college** that provides skills development courses and job-relevant training to students in South Africa and abroad.

Focused on an “excellence driven” business model, we provide a high standard of education to our students through modular study material, qualified assessors, and a well-established infrastructure.

Oxbridge Academy was founded in 1997 and provides courses in a range of further education and training (FET) subjects. We take pride in our skilled and motivated employees, experienced and loyal management team, and enviable track record.

We have a strong student base, including both first-time and returning students. Many of our first-time students come to us upon the recommendation of our current students.

As an established private distance learning institution in South Africa, we are continually expanding our operational environment, spurred on by the private sector and government’s commitment to skills development across the broader tertiary education spectrum.

Oxbridge Academy operates mainly throughout the Southern African region, with administrative offices near Cape Town in the Western Cape.

## WHY HOME STUDY?

Distance learning, or home study, is recognised worldwide as an effective manner in which to further your education. It is highly flexible, and is therefore the ideal option if you have a full-time job, live in a small town far away from a residential college or university, or have family responsibilities that prevent you from attending classes.

**Some of the benefits of home study are that you:**

- Study from home.
- Study at your own pace.
- Save money on travelling expenses.
- Are able to work full-time while you study.

Course	Course Code	Status	Recommended Duration	Requirements	Modules
<p>Advertising and marketing management combines business skills with creativity to generate interest in products and services, as well as to develop brand images. The activities involved in advertising and marketing management depend on a variety of factors, including the size of the company, the industry in which the company operates, and the nature of the products and services being marketed. Modern advertising and marketing practices involve making use of websites, search engine marketing, social media marketing and mobile apps in addition to traditional print media, radio and television marketing. As an advertising and marketing manager, you therefore need to keep up with the new developments and trends in relation to each of these platforms.</p>

## CHILDHOOD DEVELOPMENT COURSES

[Click to find out more](#)

Course	Course Code	Status	Recommended Duration	Requirements	Modules
<p>While each child is unique, and will develop at his or her own pace, there are certain developmental milestones that you can use to gauge whether a child is developing normally. Studying childhood development helps you to identify problems. By studying childhood development, you can learn about the various developmental milestones, as well as how to recognise when a child is not meeting the milestones within the normal timeframes. Studying childhood development helps you to communicate with children. A good understanding of childhood development will also help you to learn how to interact with a child on his or her level. If you are aware of the various stages of growth and how they affect a child's behaviour, you will be better able to respond appropriately to tricky situations, such as when a child refuses to eat or throws a tantrum in public.</p>
